

Rinker 360EC

The Rinker 360EC's exterior design is what first demands your attention. It has stylish lines and is big and beamy; translating in to space and comfort throughout.

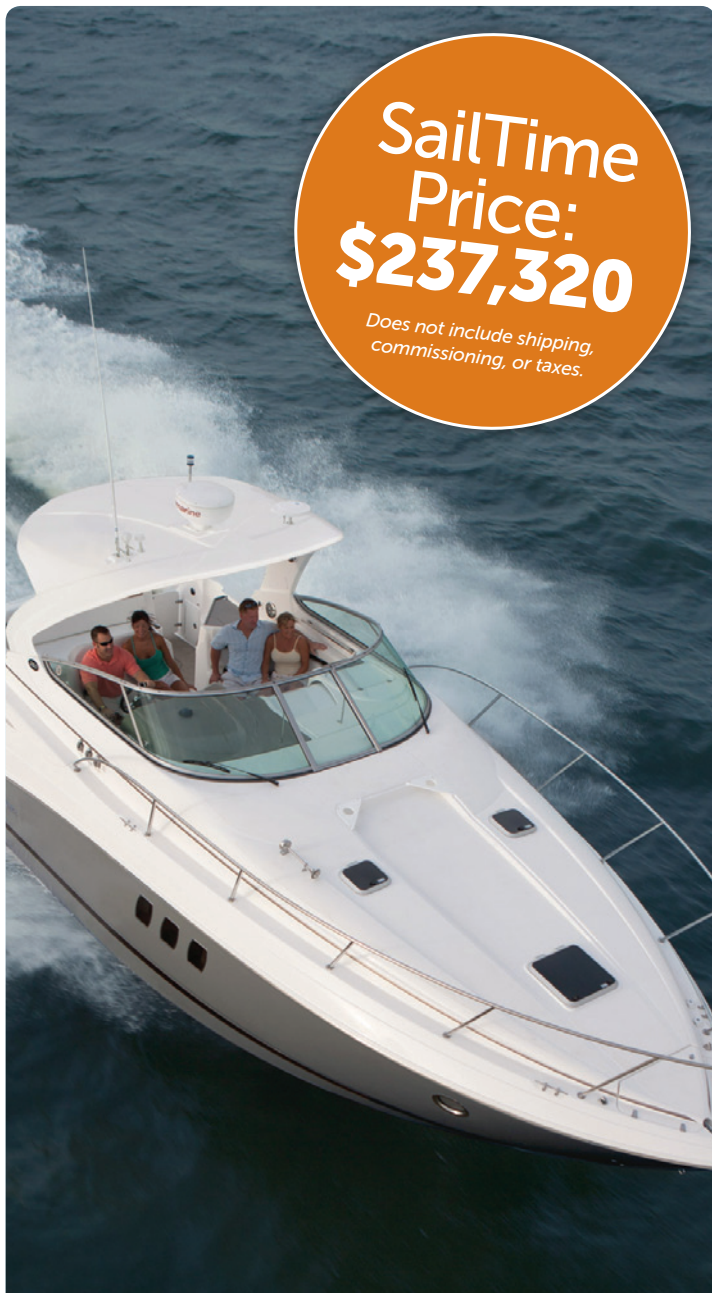

But as quick and agile as she is beautiful this Express Cruiser is perfect for both the first time skipper and the experienced Captain.

With twin Mercruiser Mag 350 sterndrive engines there's plenty of power yet the helm is responsive and has a solid feel. Add in the Axius- Joystick control and it makes the boat fun to operate and easy to maneuver in tight spots.

- Lots of exterior storage space in the transom and in the lockers under the seats
- Cockpit galley includes a wet bar, built in blender and sink, plus an icemaker and a fridge
- Private forward cabin with spacious head and enclosed shower
- Fold out sofa easily converts to create additional berths
- Salon has 2 opening hatches and 3 large port lights providing lots of light and great views
- Standard items include 5 KW generator, Corian countertops and a radar arch with built in speakers

Rinker Boats

Since 1945 Rinker Boat Company has been building watercraft with a focus on delivering a product that fits every boater's passion. As one of the lines of the Nautic Global Group, they've played a large part in creating memorable family experiences for generations of boaters.

With an emphasis towards comfort and performance, Rinkers have all the features boaters want, on and off the water. They're known for comfort, style and an "over the top" list of standard items. Incorporating the finest modern designs including stern drives, sleeker hulls and corrosion resistant materials, plus the most sought after entertainment and safety features; they provide the best value in the marketplace.

Blending function with safety you'll see that when you buy a Rinker you're simply buying the best boat for the greatest on-the-water experience you'd ever imagine.
