**Start Living the
Dream Today**

1. The benefits of SailTime Membership

A membership provides regular access to a boat which is "shared" by a limited number of Members. They design their sailing calendar using an online system where they can make instant reservations or reserve time up to a year in advance.

As a replacement for boat ownership, members can skipper new optimized, professionally managed yachts, at a fraction of the cost compared to private boat ownership.

With a choice of membership levels, boaters can opt for as many as 7 guaranteed reservations a month with a Classic Membership, or 3 with a Lite membership. Or, if they simply want to be onboard as Crew, there's a plan for that too. SailTime is perfect for anyone who wants a smarter and more realistic way to sail on a new boat.

2. The benefits of SailTime Ownership

You may have thought "How can I responsibly afford my own boat and use it often enough to justify all the hassle and expense?" SailTime has the practical solution that puts boat ownership within your reach.

It's the smart way to own the boat you want, while we help with your expenses. We provide a lease payment, and professionally manage the care of the vessel.

Owner Membership in the SailTime program eliminates the work and hassles of traditional boat ownership. Also, through SailTime's relationship with the manufacturers, you will be able to receive our exclusive, no-haggle pricing for new built-to-order boats.

3. SailTime Training

Whether you're new to sailing or an old hand who wants to brush up your skills, our award winning training centers and instructors are here to help.

As the country's largest network of ASA Sailing Schools, we offer 28 locations for training certification.

4. Global Access with SailTime Plus

At one of our more than 30 global locations, SailTime Members can make a SailTime Plus reservation to use a boat in another location. With a standardized pricing plan in place Members can have a boating experience in many locations, usually not available through a traditional charter company.

5. SailTime Scheduler

The SailTime Scheduler easily manages reservations as an on-line, hassle-free scheduling system. Accessible 24/7, Members can make reservations to plan a sail for a day or even put together a week long excursion. Our sophisticated software manages bookings and evenly shares time between the Members to ensure everyone has the appropriate number of 'sailtimes' each month.

SailTime Fees

Joining Fee

A Joining fee is required when someone first becomes a Member. This fee minimally covers the initial "checkout" process that everyone is required to perform before they can operate any vessel.

This private checkout is administered on the member's boat in their home location. The fee may vary by base location.

Annual Membership Fees

This will vary by location, the size and type of boat that you choose, plus the amount of boating that you want to do each month. Contact regional bases for their pricing.

Membership Term

All SailTime memberships are based on a 12 month term.

SailTime Yachts

Boat ownership with the best brands.
